

## Middle East and North Africa civil society and communities discuss UN HLM targets and commitments

**12 December, Marrakech, Morocco** – The International Treatment Preparedness Coalition (ITPC) Middle East North Africa Communities, Rights and Gender workshop held on 12-13 December brought together 35 representatives from civil society and affected community partner organizations to discuss engagement and empowerment of communities to advance people-centered, gender sensitive and human rights-based TB interventions in Global Fund grants.

During the workshop, the Stop TB Partnership presented the UN High-Level Meeting on TB targets and commitments booklet in Arabic & French to help build country capacity for setting goals and monitoring progress as well as advanced MENA regional level TB community mobilization. The HLM TB booklet and in more languages is available here: <http://ow.ly/dfHK50jVhhy>
