

**Partners and stakeholders discussed the End TB Strategy Pillar 2 in the Western Pacific Region**

**13 December 2018, Seoul, South Korea** – Partners and stakeholders came together in a workshop in Seoul to discuss the End TB Strategy Pillar 2 in the Western Pacific Region from 11-13 December 2018.

During the two-day workshop participants reviewed the current status of the engagement of civil society and affected communities in TB care and prevention, shared country experiences and identified major barriers and discussed possibilities of forming a regional network for better country support.

Dr Viorel Soltan from the Stop TB Partnership used the opportunity to emphasize that empowering communities, and the rights and gender agenda are central to reaching the UN High-Level Meeting on TB targets and hold governments to account.
