

Stop TB Pakistan continues hosting the coordination meeting of TB REACH grantees

The fourth coordination meeting took place at Karachi. Old and the new grantees briefed on the objectives, activities and the achievements so far (the later in case of the grantees of wave-5).

The coordination brings together the experience of the old grantees and the enthusiasm of the new players and the recipients/sub recipients of the Global Fund .

Confidently the complementarities , scaling up and sustaining the innovations,successfully piloted through the TB REACH of Stop TB Partnership would be achieved.

Thanking very much to the grantees, Bridge Consultant for hosting the meeting, the Global Fund and Mercy Corp for supporting the STP.
