

## **The Union's IMDP course on Supply Chain Management**

4-8 December 2017, Singapore

Application Deadline: 4 October 2017

<http://www.unioncourses.org/supply-chain-management-16>

The objective of this five-day course is to provide participants with the practical knowledge and skills to effectively manage the anti-tuberculosis medicines and laboratory commodities needed in today's tuberculosis (TB) programmes. There are increasing collaboration and coordination with TB programmes and many of the topics covered in this course can also be applied to the management of antiretroviral drugs and HIV diagnostics. The techniques presented in lectures will be applied during realistic case exercises and simulations related to pharmaceutical supply management (PSM).

### Benefits of Training:

- Discover the key global factors in the production, financing and distribution of TB drugs and supplies
- Gather technical knowledge about first- and second-line TB medicines
- Become familiar with laboratory requirements, including those needed for the latest diagnostic techniques, such as GenXpert
- Write better procurement and supply chain management plans for grants
- Strengthen procurement skills
- Achieve better prices and supply chain management

### Who Should Attend:

This course is designed for middle- to senior-level procurement specialists, doctors, pharmacists, warehouse managers and consultants, managing drugs and/or laboratory supplies. Participants involved in HIV/AIDS programmes or the forecasting, procurement, storage and distribution of TB-related commodities, will all benefit from this training.

Course Fee: 1,650 USD

A residential package fee is available at 2,610 USD (course fee + 960 USD for accommodation and breakfast).

Language: English

Accreditation:

IMDP participants are eligible to earn continuing medical education (CME) and/or continuing education units (CEU). The IMDP core courses are accredited by both the International Association for Continuing Education and Training (IACET) and the European Board for Accreditation in Pneumology (EBAP).
