Stand Up! Cough up!
Patients' Petition for 3D Action

We, among millions of people living with tuberculosis,
sign up to voice, with one big breath, our demand for a new deal:
more Dignity, better Diagnostics, and improved Drugs.
For our human right to access to the essentials, we stand up!
We strongly urge those who hold the resources,
our leaders and leading decision makers,
to make good on past pledges,
to cough up, now!
