Country-level ACSM Sub-Group

- Establish and fund evidence-based and innovative country- and community-driven ACSM activities to effect sustainable societal and behavioural change at the national, sub-national and individual level, aimed at ensuring access to treatment and care for all, particularly the poor, vulnerable and hard-to-reach populations.
- Ensure that ACSM is included in national programme activities and reviews.
- Disseminate evidence on good practices and lessons learned, and suggest modification of the ACSM strategy and activities when necessary.
- Commission reviews to measure progress towards building ACSM capacity.

Country-level ACSM Core Group

- Set priorities for action.
- Review progress and implement [10-year strategic framework for action](#)
- Recommend for consideration policies, schedules and projects that the full Sub Group can undertake.
- Create as needed, monitor and disband Task Forces.
- Act as an advisory body to the Vice Chair(s)/Chair.
- Monitor the impact of the efforts of sub-group contribution to TB control.
