Description of Round 6 ACSM Activities

The sixth objective is to provide quality diagnosis and treatment of TB to inmates of prisons and people living in Treatment and Education centers (TE centers). The project will initially target 16 provinces and be implemented in close collaboration with the Ministry of Police, the Ministry of Labour, Invalids and Social Affairs (MOLISA) and the VAAC.

Objective six:

SDA: TB: Timely detection and quality treatment of cases. Timely detection and quality treatment of cases. The main activities regard the provision of DOTS services to people in prisons and TE centers. The activities are undertaken in collaboration with the Ministry of Police and the Ministry of Labour, Invalids and Social Affairs. The project will establish a joint Council for TB control in prisons and social re-education institutions. The Council will assess the TB situation and legal, social and economic position of the prisoners and trainees of the TE centers and discuss the findings with MOH, MOP, MOJ, MOLISA, RC, WU, VAAC and the parliamentary committee of internal affairs. A national strategy will be developed and adopted and implemented in 20 provinces.
